Melbourne, Victoria • +61 435 887 041 • reilleygray@gmail.com • linkedin.com/in/reilley-gray/

---

Software Developer with over four years of experience in fullstack development. Expertise in Java and JavaScript, and a proficiency in React.js for front-end development. Committed to delivering innovative solutions and continuously expanding my skill set. Ready to contribute to your team's success through collaborative efforts.

## SKILLS

---

**Frontend:** Javascript, Node.js, Typescript, React.js, Vue.js, HTML, CSS

**Backend:** Java, EJB, Spring Boot, Ruby, Ruby on Rails, Python, Django, PHP, SQL, MySQL, PostgreSQL

**Infrastructure:** Amazon Web Services (EC2, ECS, RDS, Lambda, Cognito, S3, Amplify and SQS), Google Cloud Platform, Docker, Docker Compose, Git

## EXPERIENCE

---

CapitalRoad Industries

MAY 2019 - OCT 2023

### Software Developer

- Initially joined as a contract worker, focused on establishing a test framework for a Java EJB monolithic REST API supporting a financial tech SaaS product.
- Transitioned to a full-time software developer role in December 2019, specializing in frontend development within a React.js project for the same SaaS product.
- Led successful migration of the React.js project from class-based to hook-based architecture, improving code maintainability and performance.
- Demonstrated commitment to staying current with emerging technologies, consistently updating and maintaining the project's technology stack.
- Contributed to building Java Spring Boot microservices, enhancing system modularity and scalability.
- Exhibited strong client-facing skills, actively engaging with clients and delivering tailored solutions.
- Spearheaded a project towards the end of my employment, showcasing leadership and autonomy in delivering cutting-edge solutions using React.js and Spring Boot technologies to build a client-specific extension for our main SaaS product.

## EDUCATION

---

Royal Melbourne Institute of Technology

2017 - 2019

**Bachelor of Technology (Computing Studies)**

- Opted for a purposeful leave of absence from university, I directed my focus towards career opportunities at CapitalRoad
- While honing my expertise in programming languages like Java, Ruby, Python, and JavaScript, I concurrently acquired valuable insights into agile project management methodologies.
- My proficiency in Ruby and Vue.js, particularly, was cultivated through my capstone project, a financial tech SaaS product, showcasing practical application and hands-on experience.
- Additionally, I pursued a minor in business, broadening my knowledge and skills to complement my technical background.

## Lakeview Senior College

2014

### **Certificate III in Business**

I completed my Certificate III in Business at Lakeview Senior College, where I delved into fundamental business practices. Through this program, I gained proficiency in essential skills such as spreadsheet production, the application of workplace health and safety (WHS) legislation, and effective organization of personal work priorities and development. These valuable insights not only expanded my knowledge in business operations but also equipped me with practical skills that have proven to be invaluable in my career pursuits
